**EMO**
Hannover

Hanover, Germany
Sept. 16-21, 2019
Booth D108, Hall 26

Total Gear Solutions

Gleason

You are cordially invited

to visit our booth D108 in hall 26 at this year's EMO show in Hannover, Germany.

“Connected” systems make your gear production faster and more efficient than ever.

Highlights include efficient ways to create geometrically defined chamfers, automated hard gear Power Skiving with integrated cutter sharpening, Combi Honing of typical eDrive applications, gear noise analysis, latest design and simulation software for gears and transmissions as well as smart tooling systems which will bring added value to your tool crib.

Experience the world of connected gear manufacturing systems

Udo Stolz
Vice President Worldwide Sales and Marketing
Gleason Corporation

160HCD gear hobbing system including chamfer hobbing

Power Skiving with integrated cutter sharpening

260GX with integrated double flank laser inspection

Combi Honing and Super Finishing

Multi-sensor metrology for gear noise analysis

Combined double flank roll testing and laser scanning

Hydraulic workholding for improved clamping performance

Modular bevel workholding for fast gear development

Latest gear cutting and grinding tool developments

Plastic gear manufacturing

Fingerprint Analysis for predictive maintenance

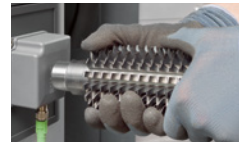

Modern bevel gear design and manufacturing software

KISSsoft® Design Software for gears and transmissions

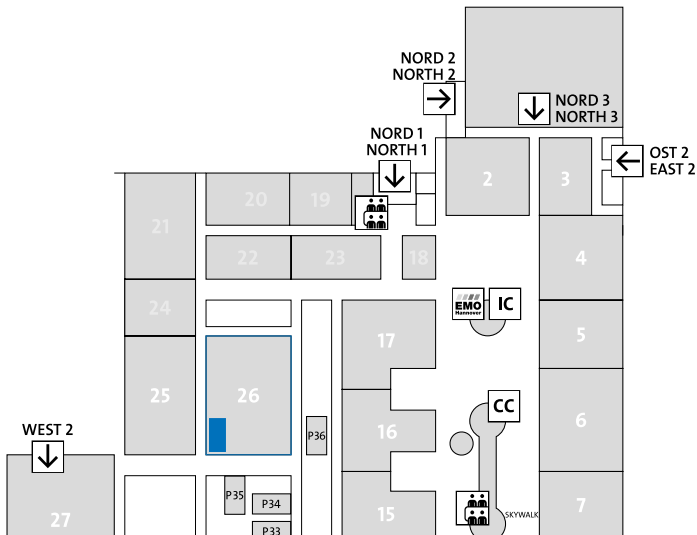

Augmented reality meets service

Machine-tool-communication

We look forward to welcoming you at booth D108 in hall 26.
